MEDECINS SANS FRONTIÈRES IN CONGO

8.08.2006

The German [Ärzteblatt](#) reports that [Medecins Sans Frontières](#) is facing enormous problems in Congo. Besides this humanitarian problem there is virtually no research for neglected diseases.

“The [situation for patients](#) has not changed and the future is bleak,” said Dr Rowan Gillies, President of the MSF International Council. The website shows how to [donate](#). Yea, yea.
