6 SIGMA (TM)

31.12.2006

No, this is not a post about another case of scientific misconduct (the sigma factor in transcription initiation published in Cell last October) but about [Six Sigma](#), a process developed at Motorola in 1986 for measuring defects and improving quality of the production process (Motorola owns the trademark for Six Sigma). Read more at the excellent Wikipedia article – applying these principles could also help scientific projects, yea, yea.
