# BIOMEDICAL JOURNAL SEARCH – A SMALL GIFT

25.01.2007

Pubmed often leads you to dead ends – journal citations without a link to the journals' home. Google helps sometimes but is always time consuming. As a little gift for you, I have written a small bookmarklet that will scan the Regensburg library files – just left click on the

link below and move it to your browser toolbar. With just a mouse click you can then locate the journals homepage.

## Addendum

Another approach – the [LibraryLookup](#) Bookmarklet Generator.
