AT ITS HEART

22.02.2007

[43 folders](#) writes:

Remember that your blog is only incidentally a publishing system or a public website. At its heart, your blog represents the evolving expression of your most passionately held ideas. It's a conversation you're holding up with the world and with yourself – a place where you can watch your own thoughts take different shapes and occasionally surprise you with where they end up!

wow – couldn't say that in a better way.
