RNA GENES – DARK MATTER OF HUMAN BIOLOGY?

23.07.2007

I currently hunting some transcripts of unknown function (see below), possibly a RNA gene? while it is difficult to locate any good annotation server. So far I tried [RNAz](#) based on a [PNAS 2005](#) paper – another one was [RNA Genie](#). Next step will be the new [Gingeras paper](#) that describes even a new class of RNA genes. Finally this may not even be a RNA at all but an alternative leading exon ...
