CD1 TO CD350

10.02.2008

I had to g..gle several times to find a comprehensive list of [CD marker](#). Yes - I could buy this [book](#), retrieve this [paper](#) or surf to this [web site](#) but I simply need a quick reference for all CD classes. A student here helped me - go for the (printed) [Biologends catalogue](#). Nice to know that Invitrogen has a [free online book](#), yea, yea.
