... also for some people in the field the main [paradigma in science](#). To cite Wikipedia

Bush's assertion "and the sign itself" became controversial after guerilla warfare in Iraq increased during the Iraqi insurgency. The vast majority of casualties, among both coalition (approximately 98.3% as of October 2008) and Iraqi combatants, and among Iraqi civilians, have occurred after the speech. Due to this fact, "Mission Accomplished" is now a winged word for uncompleted operations with an unclear ending.
