USEFUL WORDPRESS MAINTENANCE SCRIPTS

27.12.2010

End of a year and time for some maintenance work.

And yes, I found a [nice plugin to convert all useless pages to posts](#) (sorry, there is no download page here anymore, it's all in the blog hierarchy).

It would be also nice to check my 3056 links over the past 4 years and it looks good, [what the link checker says](#)

Edit URL | Unlink | Not broken

While the numbers slowly increase, I found that all broken links are being crossed out in the original posts, very handy!
