#188 ALISA SINGER | DATAART

Share the Gallery !

Environmental Graphiti, The Art of Climate Change, is a non-profit venture created by artist Alisa Singer which uses abstract art as a vehicle to enhance public awareness of the facts about climate change. Each image in the series of over 40 digital paintings uses as its "blueprint" a chart, graph, word, number or sketch relating to a key fact about climate change. To see more of the art

and learn more about Environmental Graphiti, please visit the website at: http://www.environmentalgraphiti.org. This project is not coded in R. Browse this section as a Slideshow

Carbon Emissions 1958-2013
