SO MANY CONTRACT DISPUTES

2.12.2018

While working on the revision of a paper on GDPR & open access, I found an interesting table [who is fighting whom in science](#).

COUNTRY	CONSORTIA	DISPUTE
The Netherlands	VSNU	Royal Society of Chemistry
Germany	Deal	Elsevier
Sweden	Bibsam	Elsevier
France	Couperin	Springer Nature

Do we need any of these publishers? I would say no.
What's currently allowed is in the [Sherpa/Romeo](#) list.
