# HEALTH DISPARITY IN AFRICA

15.09.2019

Health disparity in Africa is not only about current medical diagnosis & treatment but also future generations. See <https://www.nature.com/articles/s41588-019-0379-x>

**Fig. 1 | Ancestry of GWAS participants over time, as compared with the global population.** Cumulative data, as reported by the GWAS catalog<sup>76</sup>. Individuals whose ancestry is 'not reported' are not shown.

Any way out?
