# EDIT R PLOTS IN KEYNOTE

4.07.2020

Did not know but there is a library that is able to export directly to .pptx which can be imported into Keynote and edited after ungrouping.

CRAN not published downloads 20K

## export version 0.2.2 Beta

export is an R package to easily export active R graphs and statistical output in publication quality to Microsoft Office (Word, PowerPoint and Excel), HTML and Latex.
