**PHILOSOPHY** 

## **TOO MANY PAPERS**

18.02.2021

A commentary about the current information implosion

the curse that hangs over academia which dooms it to publish incessantly irrelevant and pointless documents. The overabun- dance of publications is not justified and is not even necessary in many contexts for personal promotion, and even less for the advancement of science. Therefore, the current role of scientific journals is highly questionable.
