ALLERGY, JOKE

## ALLERGY RESEARCH FAILED FROM THE BEGINNING

4.04.2021

I have been asked why allergy research is so much dominated by quack research with an obsession to strange research areas like risk by use of toilet paper or protection by toilet shit.

I don't know the answer. Maybe every "researcher" can immediately get a paper published?

The field has been spoiled since I worked in this area – here is a never retracted <u>paper on</u> the effect of molecules in water below the Avogadro limit...
