We regret to inform you that we will not be giving away insulin, a publicly funded invention that was given away by its creator to be given away to people so they don't die.

Eli Lilly stock isn't just tanking because of a satirical Tweet on Musk's hellscape, it's tanking because millions of people are asking why we have to pay for insulin, when it was made to be free.

That's why other insulin stocks are falling too.
