A REAL, NO-FAKE SPRINGER NATURE PRESS RELEASE

17.02.2023

Springer Nature continues its focus on tailored solutions for academics with acquisition of researcher-created writing tool, TooWrite ([14 Feb 23](#))

Developed by researchers for researchers, the TooWrite platform streamlines and simplifies scientific writing by guiding researchers through the process as if they were answering a questionnaire. In addition, expert how-to guides are attached to each question, supporting researchers as if they had an editor by their side. By structuring it in this step by step way, researchers' time is freed up by making the writing process more efficient.

the comment that hits the nail

At some point there will be nothing left to buy. But then there will be no way out for researchers anymore from ready-made workflows that suck them dry at every stage of the research life cycle.

Irgendwann wird es nichts mehr geben, was man aufkaufen könnte. Aber dann gibt es für Forschende auch keinen Ausweg mehr aus vorgefertigten Workflows, die sie an jeder Stufe des Research Life Cycle aussaugen.
