Please pass on this ID if you contact your support team about this problem.

02:3

0: Third attempt

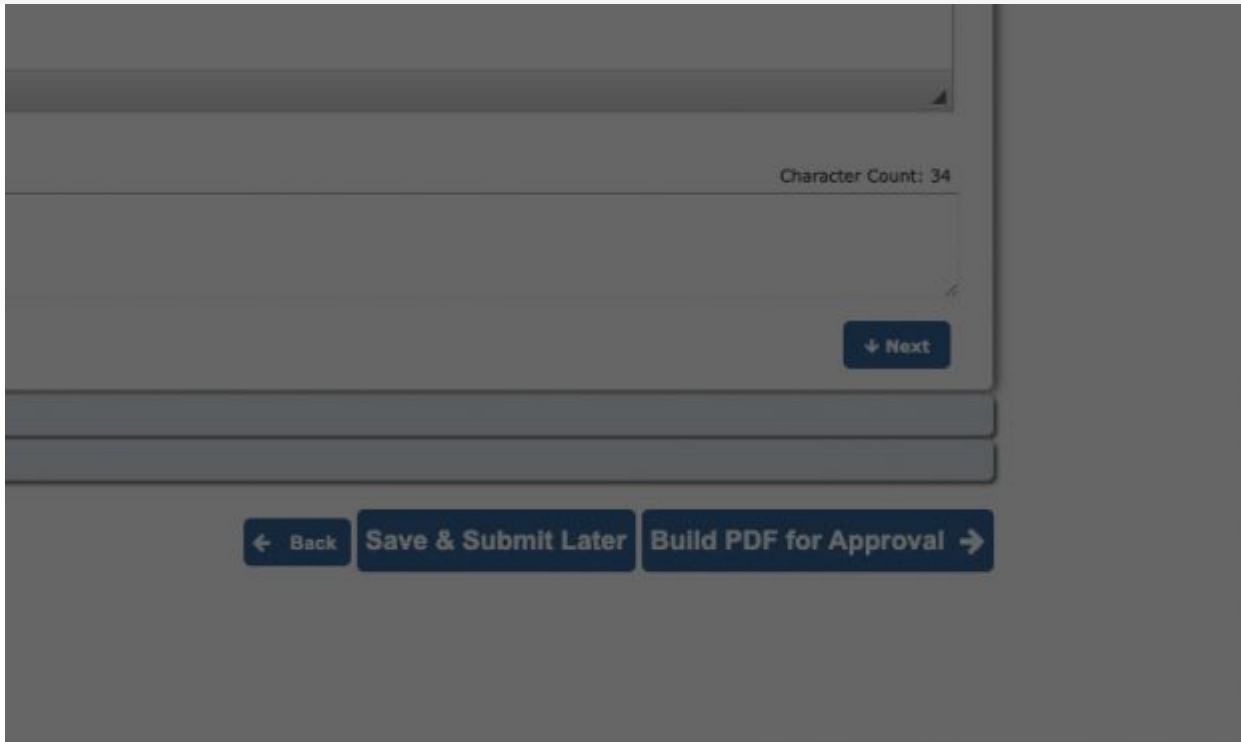

...w.editorialmanager.com wird Folgendes angezeigt:

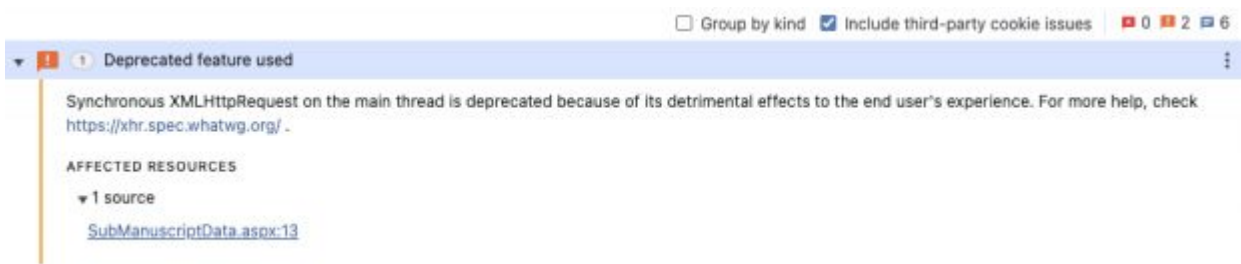

Sys.WebForms.PageRequestManagerServerErrorException: An unknown error occurred while processing the request on the server. The status code returned from the server was: 500

Ok

02:45, 03:00: Fourth + Fifth attempt

4:00 Number 6

5:00 Number 7

still waiting for the PDF to render...

Is this ASP running on a single Win 3.1 machine? For 6800€ publication fee?
